SKILLS AND TOOLS I'VE WORKED WITH

Python :: Typescript :: Vue :: FastAPI :: Django :: SQL :: NoSQL :: Tailwind :: Elastic Search :: Kubernetes :: AWS

EXPERIENCE

InfiniaML, Durham NC — *Mid-Level Full-Stack Engineer*

MARCH 2022 - PRESENT

- Worked in both frontend and backend of a complex, document extraction web application. Developed and led a greenfield project constructing an Admin web application using Vue 3, FastAPI, and Keycloak.

OneTrust, Remote — *Python Backend Developer*

JUNE 2021 - MARCH 2022

- Contributed to backend API using FastAPI as the web framework in a microservice architecture, including but not limited to: auth, user management, document review system, telemetry, testing, and more.

Wine & Design, Greensboro NC — *Painting Instructor*

JANUARY 2019 - MARCH 2020

- Instructed acrylic painting classes for adults and children. Classes would range from 4 people to around 35 people.

Volvo Trucks, Greensboro NC — *Software Developer Intern*

JUNE 2016 - AUGUST 2016

- Created an Electron application using HTML documents (data wrangled from Microsoft Word documents), using web technologies to maintain a dynamic, referential catalog of said documents.

EDUCATION

Lambda School — *Data Science*

AUGUST 2020 - FEBRUARY 2021, Remote

- Studied data science and computer science at Lambda School, a coding bootcamp. It was an intensive 8 hour per day, 6 month-long program. I worked on various group projects, including a month-long project for the non-profit Human Rights First Asylum data.

University of North Carolina at Greensboro — *Studio Art*

AUGUST 2017 - JUNE 2019, Greensboro NC

- Studied Studio Art. Took various classes such as drawing, life-drawing, painting, design, and more.
